

BULLET TOGGLE TIES

PRODUCT DESCRIPTION

This durable multi-stranded elastic shock cord features a high-tenacity polyester cover for exceptional strength and flexibility.

Equipped with a high-impact pointed toggle and a secure hook, it is the perfect solution for attaching scaffold sheeting to scaffold structures. It can also be effectively used with tarpaulins.

The cord's robust piercing toggle ensures effortless penetration of the sheeting, providing a reliable and convenient fastening option.

Supplied in bags of 100 ties per bag and available in both white or orange and black colours.

FEATURES
