

RGA4

FALL ARREST BLOCK WITH RECOVERY WINCH - 15M

RGA4

The RGA4 is a three way retrieval block fitted with an up/down winch mechanism and the standard fall arrest capability.

This unit can be used as a standard fall arrest block, but in the event of a fall the operative can be winched up or down to safety almost immediately.

The winch function is for use only as a recovery provision and not for access/egress. The RGA4 is supplied with galvanised wire cable.
