

RGP1

WORK POSITIONING/ADJUSTABLE RESTRAINT LANYARD RGP1 FINCH

The RGP1 Finch can be used for work positioning by clipping onto both side D rings located on a work positioning belt and wrapping around a suitable structure, or as an adjustable restraint lanyard to prevent the user from entering the risk of a fall situation.

The smooth cam action allows the user to move freely and adjust with ease. When used in work positioning the RGP1 Finch has an additional wear sleeve to protect the rope from abrasion.

We advise using an RGL4 extension strop when attaching to your rear D plate.

EN 358:2018

Material:	11mm kernmantle nylon rope
Fittings:	Double action snap hook, Screwgate karabiner Adjuster (all aluminium alloy)
Sizes/weights:	2m - 620g 5m - 870g 10m - 1.29kg
Max. User weight:	140kg

FEATURES

Simple & fully adjustable

Anti-abrasion wear sleeve
